Smart Touchpoint Solutions

Connect Every Interaction. Power Every Experience.

Transform the way your business operates with intelligent touchpoints that seamlessly connect people, systems, and spaces. Our smart solutions integrate hardware and digital platforms to deliver efficient, secure, and data-driven experiences across every interaction.

What Are Smart Touchpoints?

Smart touchpoints are connected devices and systems—such as vending machines, smart lockers, access control, and kiosks—that enable seamless user interactions while providing real-time data and automation for your business.

Our Solutions

Hardware

Smart Vending Machines

Automated retail solutions for food, drinks, coffee, and merchandise—available 24/7.

03

Smart Lockers

Secure, contactless storage for offices, schools, hospitals, and public spaces.

04

Access Control & Turnstiles

Manage entry with QR, RFID, biometric, and mobile authentication.

05

POS & Payment Systems

Enable seamless, cashless transactions across all touchpoints.

06

Access and ID tokens

Enable seamless authentication with RFID, NFC, QR, and mobile-based tokens—fast, secure, and easy to use.

07

Software

Digital Platforms & CMS

Centralized control for monitoring, management, and data insights.

08

Website & Sales Page

Create powerful digital experiences that do more than just look good—they drive real results.

09

HARDWARE

Smart Vending Machines

All-in-One compact design

Touch screen technology

Cashless payments

Easy maintenance

Popularity and sales status of each product

Live inventory tracking

General Features

Get amazing value for money with the Spaza 24/7, with 90 degree door opening, compact design and high capacity tray option.

- **Vend Sensors** – Ensure accurate, guaranteed delivery
- **Membrane Keyboard** – Durable and cost-efficient
- **Cashless Payment Sensor** – Easy and reliable to use
- **Secure Door** – Anti-vandal, reinforced design
- **Glass Display** – Clear and premium visibility
- **Anti-Theft System** – Built-in delivery box protection

Specification

Minimum Order Quantity	1
For detailed specifications and requirements	Contact our team
Warranty	1 Year

Benefits You'll Gain

Increase Sales

The advertising screen on the machine attracts attention and boosts purchasing opportunities.

Convenience & Speed

- Customers can easily purchase products in just a few simple steps.
- Monitor sales and inventory in real time, with full visibility of daily revenue—reducing the risk of fraud.

Reduce Operational Costs

- Operates like a mini-mart without the need for staff—creating new business opportunities for high-potential locations.
- Reduces workload from sales staff to stock management and waste control, especially for hotels and resorts—significantly lowering operational costs.

Enhance Modern Brand Image

- Ideal for commercial spaces looking to stand out and meet the lifestyle of modern consumers.
- Strengthen engagement with employee card systems for point collection and product redemption.

HARDWARE

Smart Lockers

Scalable Platform

Touch screen technology

Self-Service 100%

Multiple Authentication

Safe & Secure

Dashboard and analytics

General Features

Our smart lockers deliver secure, efficient storage and retrieval for e-commerce, parcel delivery, and asset management.

- **Multi-Access** – QR, RFID, PIN, mobile
- **Real-Time Control** – Monitor usage instantly
- **Automated System** – Self-service, low effort
- **Secure Storage** – Safe and reliable
- **Scalable Design** – Flexible and customizable

Specification

Minimum Order Quantity	1
For detailed specifications and requirements	Contact our team
Warranty	1 Year

Benefits You'll Gain

- **Improved Operational Efficiency**
Automate storage and retrieval to reduce manual workload
- **Enhanced Security**
Controlled access with real-time tracking and audit logs
- **Cost Reduction**
Minimize staffing and operational expenses
- **24/7 Accessibility**
Enable anytime access for users without staff assistance
- **Better User Experience**
Fast, convenient, and contactless interactions
- **Scalable Solution**
Easily expand as your business grows

HARDWARE

Access Control & Turnstiles

Workflow Efficiency

Flexibility

Increased ROI

Contactless access

Convenient, fast & secure

Traffic Monitoring

General Features

Enterprise-grade systems built to enhance security, manage traffic flow, and provide real-time visibility across your facility.

- User-Friendly
- Real-Time Monitoring
- Secure & Reliable
- Seamless Integration
- Automated System
- Scalable Design

Specification

Minimum Order Quantity	1
For detailed specifications and requirements	Contact our team
Warranty	1 Year

Benefits You'll Gain

- **Enhanced Security**
Protect your premises with controlled entry and advanced authentication methods
- **Controlled Access Management**
Define and manage user permissions to ensure only authorized access
- **Improved Traffic Flow**
Reduce congestion and manage high-traffic areas with smooth, automated entry
- **Real-Time Monitoring & Insights**
Track access logs, monitor activity, and make data-driven decisions
- **Reduced Operational Costs**
Minimize the need for manual security and front-desk staff
- **Increased Operational Efficiency**
Automate entry processes to save time and streamline daily operations
- **Scalable & Flexible System**
Easily adapt and expand as your business grows

HARDWARE

POS & Payment Systems

All-in-One Design

Durable Build

Multi-Payment Support

Secure Transactions

Easy Integration

High-Speed Processing

POS & Payment Systems Hardware

- **POS Terminal** – All-in-one system for sales and transaction management
- **Touchscreen Display** – Responsive interface for fast, easy operation
- **Card & NFC Reader** – Supports contactless, chip, and mobile payments
- **QR Code Scanner** – Quick and accurate code-based transactions
- **Receipt Printer** – Fast and reliable printing for customer receipts
- **Cash Drawer** – Secure storage for cash handling
- **Barcode Scanner** – Efficient product scanning and inventory tracking

Specification

Minimum Order Quantity	1
For detailed specifications and requirements	Contact our team
Warranty	1 Year

General Features

Advanced hardware built for speed, flexibility, and multi-payment support—ensuring smooth and efficient operations.

- All-in-One Design – Compact and efficient setup
- High-Speed Processing – Fast and smooth transactions
- Multi-Payment Support – Card, NFC, QR, and mobile
- Secure Transactions – Encrypted and reliable payments
- Durable Build – Designed for continuous daily use
- Easy Integration – Connect with POS and business systems

Benefits You'll Gain

- **Faster Checkout**
Speed up transactions and reduce customer wait times
- **Operational Efficiency**
Streamline processes and minimize manual work
- **Reduced Errors**
Improve accuracy in transactions and reporting
- **Enhanced Customer Experience**
Deliver smooth, quick, and reliable payment interactions
- **Cost-Effective Operations**
Durable hardware reduces maintenance and long-term costs

HARDWARE

Access and ID Tokens

Multi-Access Methods

Secure Authentication

Contactless Use

Real-Time Tracking

Seamless Integration

Scalable Solution

Access and ID Tokens

- **RFID Cards / Keycards** – Tap-to-access cards for entry and identification
- **NFC Cards** – Standard tap cards for access and payments
- **NFC Wristbands** – Ideal for events, gyms, and resorts
- **NFC Key Fobs / Tags** – Compact and portable tokens
- **NFC Stickers / Labels** – Can be attached to phones or objects

Specification

Minimum Order Quantity	1000
For detailed specifications and requirements	Contact our team
Printing Service	Contact our team

Benefits You'll Gain

- **Enhanced Security**
Secure authentication reduces unauthorized access
- **Faster Access**
Quick and seamless entry with tap or scan
- **Contactless Convenience**
Hygienic and easy-to-use experience
- **Centralized Control**
Manage permissions and access in one system
- **Real-Time Monitoring**
Track usage and access logs instantly
- **Operational Efficiency**
Reduce manual processes and improve workflow

SOFTWARE

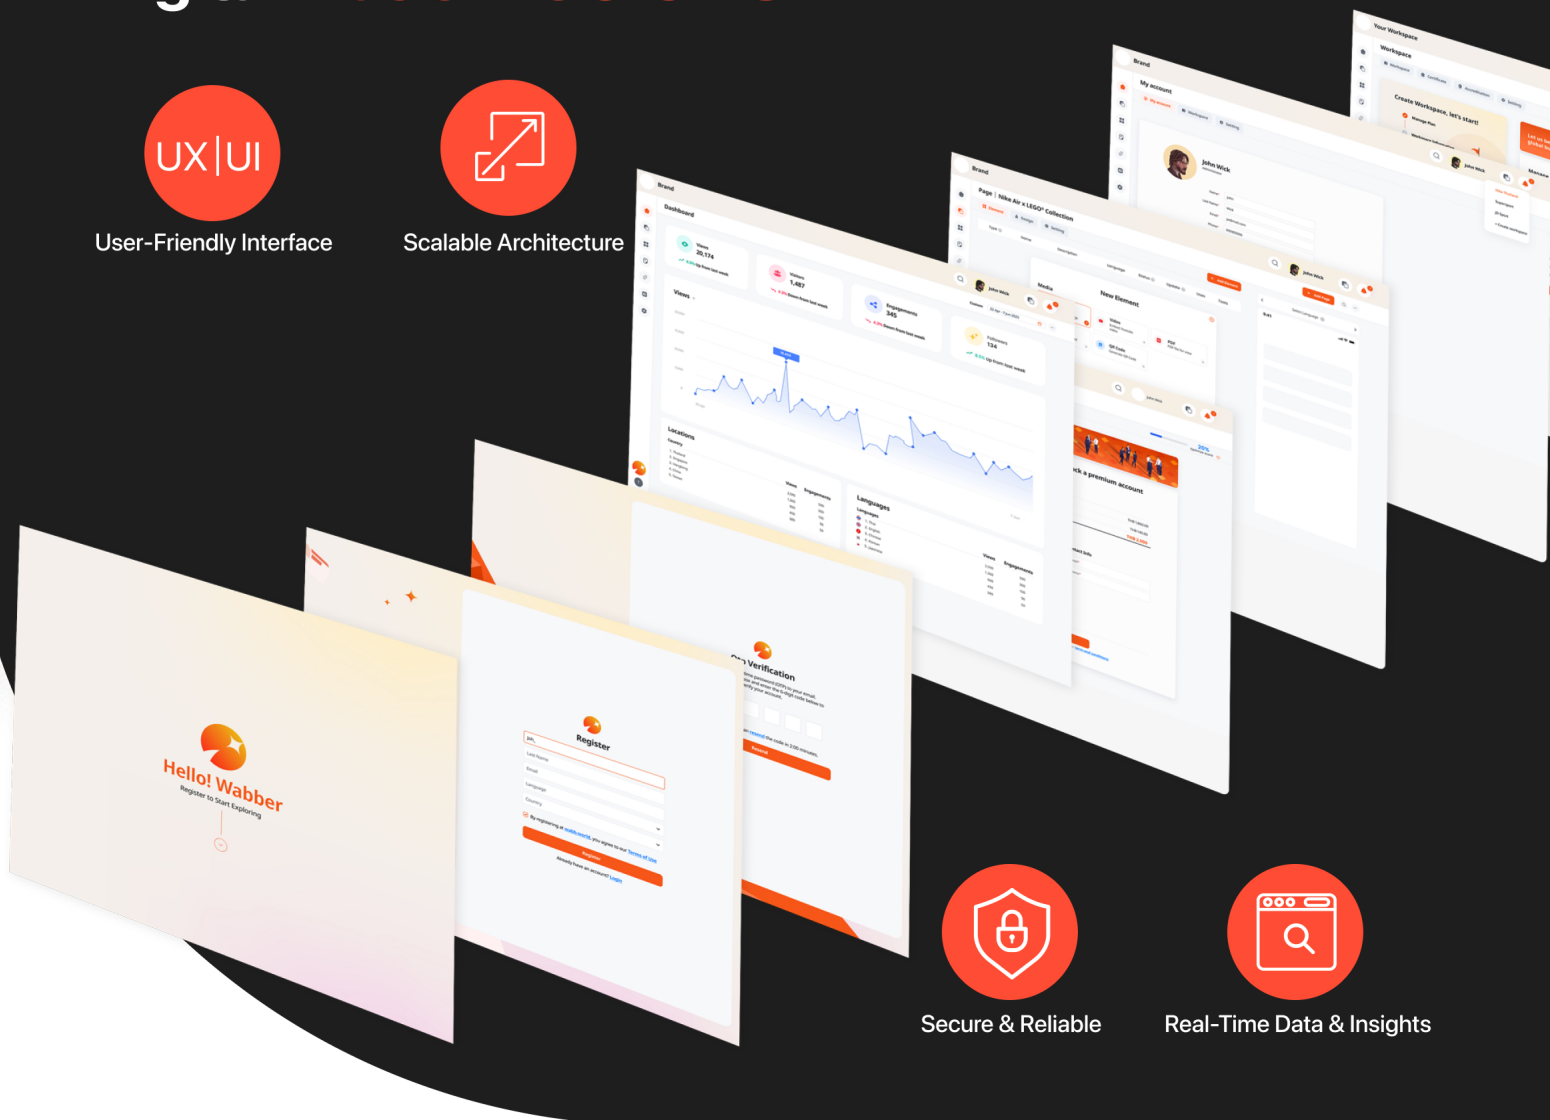

Digital Platforms & CMS

User-Friendly Interface

Scalable Architecture

Secure & Reliable

Real-Time Data & Insights

Our Services

- **Custom CMS Development**
Build tailored content management systems designed around your workflow
- **Platform Development**
Create scalable digital platforms to manage users, services, and operations

- **System Integration**
Connect CMS with CRM, ERP, payment systems, and third-party APIs
- **UI/UX Design**
Design intuitive, user-friendly interfaces for better engagement and usability
- **Maintenance & Support**
Ongoing updates, monitoring, and technical support to ensure smooth performance

General Features

Manage, update, and scale your digital ecosystem with ease and efficiency.

- **User-Friendly Interface**
Intuitive system for both technical and non-technical users
- **Real-Time Data & Insights**
Monitor performance, user activity, and system status instantly
- **Seamless Integration**
Connect with CRM, ERP, APIs, and third-party services
- **Scalable Architecture**
Flexible system designed to grow with your business
- **Secure & Reliable**
Built with modern security standards and stable infrastructure

Benefits You'll Gain

- **Improved Efficiency**
Streamline workflows and reduce manual processes
- **Data-Driven Decisions**
Use real-time insights to optimize performance
- **Enhanced User Experience**
Deliver consistent and seamless interactions
- **Supports Business Growth**
Adapt and scale as your needs evolve

SOFTWARE

Website & Sales Page

User-Friendly Interface

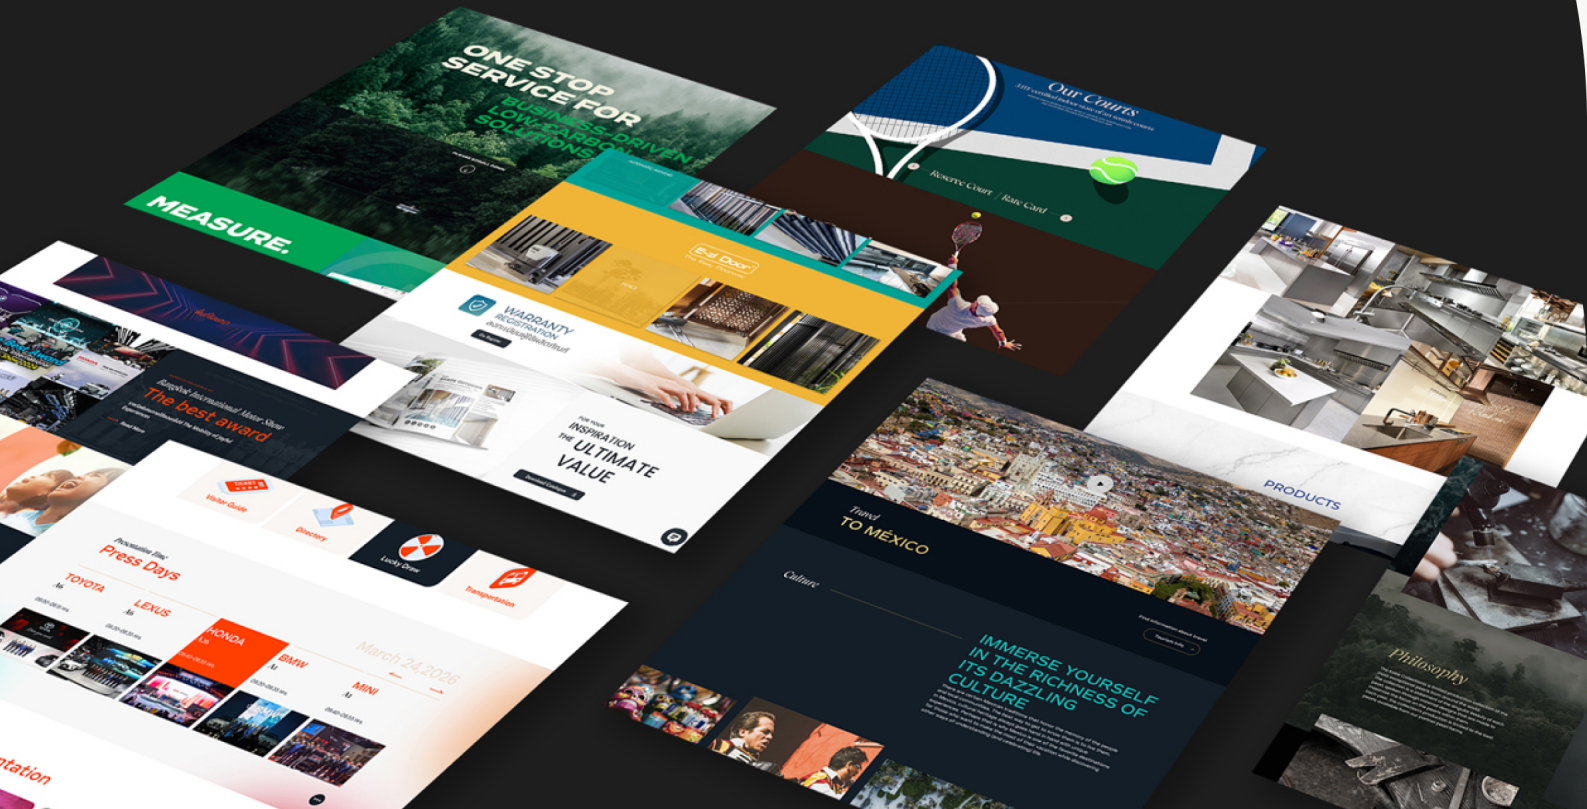

Scalable Architecture

Secure & Reliable

Real-Time Data & Insights

Our Services

- **Website Design & Development**
Modern, responsive websites tailored to your brand
- **UI/UX Design**
Intuitive, user-centered design for better engagement
- **SEO Optimization**
Built for visibility and search performance
- **Performance Optimization**
Fast loading speed and smooth user experience
- **Maintenance & Support**
Ongoing updates and technical assistance

General Features

Strengthen your online presence and accelerate growth with conversion-driven design.

- **Conversion-Focused Design** – Built to drive user action
- **Responsive Experience** – Seamless on all devices
- **Fast Performance** – Optimized for speed and reliability
- **SEO Ready** – Structured for search visibility
- **System Integration** – Connect with tools and platforms

Benefits You'll Gain

- **Increase Conversions**
Turn visitors into customers
- **Enhance User Experience**
Smooth and intuitive journey
- **Improve Visibility**
Reach more users online
- **Support Growth**
Scalable for future expansion

PROCESS

Our **Implementation**

01. Consultation & Assessment

We analyze your workspace, requirements, and business goals to recommend the most suitable solutions.

02. Solution Design

Our team designs a tailored system combining hardware and digital platforms to fit your workflow and environment.

03. Planning & Integration

We prepare installation plans and ensure seamless integration with your existing infrastructure and systems.

04. Installation & Setup

We prepare installation plans and ensure seamless integration with your existing infrastructure and systems.

05. Training & Onboarding

We provide guidance and training to ensure your team can use and manage the system effectively.

06. Go Live & Support

Once deployed, we offer ongoing monitoring, maintenance, and support to ensure long-term performance.

Our Specialized Teams

Strategy & Planning Team

Defines goals, user flows, and project roadmap to ensure the right solution

Design & Development Team

Creates intuitive designs and builds high-performance systems

Deployment & Support Team

Handles installation, integration, and ongoing maintenance

WE ARE BARN364

A collective of thinkers, builders, and innovators shaping the future of smart solutions.

Building the Future of Smart Business

We are a technology solutions provider focused on redefining how businesses connect, operate, and grow.

By combining digital platforms with intelligent hardware, we create seamless ecosystems that transform everyday interactions into smart, efficient experiences.

Creativity meets technology. Ideas become reality.

Our Approach

We believe every business is unique. That's why we create tailored solutions designed around your specific needs, workflows, and goals.

- **Seamless Integration** – Connect digital platforms with physical devices effortlessly
- **Data-Driven Control** – Gain real-time insights to optimize operations
- **Scalable Systems** – Built to grow with your business
- **User-Centric Design** – Simple, intuitive, and efficient experiences

What We Deliver

Digital Layer

Websites, Sales Pages, Applications, CMS, and Scalable Platforms Designed to power your digital presence and business growth.

Secure Authentication

Smart Vending Machines, Lockers, Access Control Systems, and Touchpoint Devices Designed to deliver seamless, secure, and connected user experiences.

Integration Layer

Seamless connectivity, automation, and real-time data management Driving efficiency, reducing operational complexity, and enabling smarter, faster decision-making at every level.

General Features

We deliver digital and smart solutions—from websites and platforms to vending, lockers, access control, and payments—designed for seamless, efficient, and scalable experiences.

- **User-Friendly Experience** – Intuitive design for easy use
- **Fast & Reliable Performance** – Optimized for speed and stability
- **Secure Systems** – Built with modern security standards
- **Real-Time Monitoring** – Track data, usage, and performance instantly
- **Seamless Integration** – Connect with existing systems and platforms
- **Automation-Ready** – Reduce manual work and improve efficiency
- **Scalable Architecture** – Flexible to grow with your business

Benefits You'll Gain from Our Services

- **Increased Efficiency**
Streamline operations and reduce manual work
- **Scalable Growth**
Systems built to grow with your business
- **Better User Experience**
Seamless, intuitive interactions across all touchpoints
- **Reliable Performance**
Stable, secure, and optimized systems

BARN364

**Engineered for
seamless efficiency.**

**Built for real
impact.**
